ARB Regional Price List

2018

MARCH

(prices subject to change without notice)

To Our Valued Customers

This price book covers the vehicles for which we supply a range of ARB manufactured products which includes our bull bars.

There are vehicles for which, whilst we have not as yet developed a bull bar, we still have a large range of accessories available such as lights, side steps, tow bars, Air Lockers, snorkels etc.

We are continually sourcing and designing new products to add to our range, so if your vehicle or a particular accessory is not listed here please enquire with one of our sales staff... we may have just what you're after.

Please note that whilst every effort is made to ensure the information contained in this book is accurate, ARB reserves the right to amend printing errors or incorrect information. ARB also reserves the right to change prices without notification.

(E & OE) Errors and Omissions Excepted. This price and application list is lovingly crafted by a dedicated team of specialists however, due to the complex nature of this price and application list inevitably human errors will occur therefore we reserve the right to correct any genuine errors, application errors and related issues. We will always be fair and reasonable if this results in a problem.

Vehicle Compatibility

Please note that information contained in this guide is based on manufacturers' specifications at the time of print. Changes to vehicles or products may occur after this time that may render a certain accessory unsuitable for a particular application.

Vehicle model dates contained in this guide are indicative, so please exercise caution when ordering accessories if your vehicle's build date falls close to a model change date. If in doubt, please consult your ARB distributor, who can assist with determining the correct products for a particular vehicle.

The products detailed in this guide are fully compatible with air bag systems (when fitted), unless otherwise stated. For information on the technology behind our products, and how air bag compatibility is achieved please refer to the ARB catalogue.

Removal Of Parts From Your Vehicle

Please note that in some cases, it may be necessary to remove parts from your vehicle in order to carry out the fitment of replacement parts and accessories.

In most cases, removal of these parts unavoidably destroys them and renders them unsuitable for re-use.

Original parts removed from your vehicle to allow for installation of replacement parts and accessories are disposed of on the same day as installation.

We are sorry but we are unable to store such parts on your behalf. If you wish to retain these parts, please inform us prior to the commencement of any work being carried out on your vehicle.

Please bear in mind that in most cases the removed parts are not suitable for transport inside your vehicle due to their size, nature and condition. Their loading and transport will be your responsibility in such circumstances.

FREIGHT CHARGES

Prices shown in this book do not include any allowance for the cost of freight. In some states, territories and rural areas some additional freight costs can be expected.

GST

Prices shown in this book are inclusive of GST.

FITTING CHARGES

Fitting charges listed in this book are based on installation of accessories on brand new, unmodified vehicles using standard ARB supplied components such as switches and brackets etc.

Installation in older vehicles and/or vehicles with other aftermarket accessories, conversions or modifications which require additional fitment labour will incur additional charges.

Fitting charges are only applicable when the product is purchased and fitted at the same location and time. Fitting of any customer supplied product is chargeable on an hourly rate basis.

We suggest you discuss any such issues with our sales staff when placing your order.

COLOUR CO-ORDINATION CHARGES

All ARB manufactured Protection Equipment is finished to the highest standard.

Once fully assembled our Protection Equipment is shot blasted, chemical pre-treated and phosphate washed then oven dried before a specially formulated, hard wearing, polyester powder is electrostatically sprayed and subsequently oven baked.

However, the choice is yours. If you would prefer to have the accessories coloured, a high quality automotive refinishing two-pack paint system is applied on top of the powder coat after it has been hand prepared by our expert staff, giving the accessories a very high quality, gloss finish. It is preparation such as this which will ensure our Protection Equipment will retain its visual appeal on your vehicle for many years.

Note: ARB Commercial Protection equipment is not designed to be colour coded and we do not recommend it.

ARB Canopies featuring a grained exterior come in a natural white finish. Colour coding is optional on these models. Smooth exterior canopies including Ascent, Classic, Classic Plus and Sport Lids must be colour coded.

For colour coded products, ARB utilises one of the finest paint systems available. However, with modern colours, and bearing in mind we are working to a colour code formula supplied by the paint company, due to possible variations in factory applied paint colours on your vehicle, we are unable to guarantee a 100% match. Please check with our sales staff. For some vehicle models we may recommend a contrast colour be supplied.

*Colour Co-ordination of Kaymar products is only available for their Rear Step Tow Bars. Rear Wheel and Jerry Can Carriers for rear step tow bars and for standard bumpers are only available in the standard Kaymar finish.

MISCELLANEOUS PRODUCT INSTALLATION AND SERVICE CHARGES

Labour charges indicated below are based on installation of accessories on brand new, unmodified vehicles using standard ARB supplied components such as switches and brackets etc. The installation charges DO NOT include the cost of the accessory, service parts or removal and replacement (R&R) of a winch.

Wherever possible we aim to provide a fixed price installation cost, however certain accessories may require additional labour. Winch R&R charges or accessory installation in vehicles with other aftermarket accessories, conversions or modifications, which require additional fitment labour will incur additional charges at the current hourly labour rate. Fitting of any customer supplied product is chargeable on an hourly rate basis. Consult your ARB workshop for vehicle specific installation requirements.

Fitting charges are only applicable when the product is purchased and fitted at the same location and time. Unless otherwise stated the price indicated includes workshop ancillary items e.g. bolts/nuts/screws, cable/cable ties/conduit/fuse, lubricants and oil disposal.

If a winch is fitted to a bar that has already been installed on a vehicle, the bar fitting cost is still incurred as removal and refitting of the bar is generally necessary. A winch fitting kit may also be required.

¹Fitting is per set. Fitting electric mirror to factory non electric mirrored vehicle requires (SP-EK), included with CV-TL-70S-KEB/C/KIEB/C, and additional hard wiring by a registered auto-electrician at extra charge.

²Clearview towing mirrors might negate the use of Quarter Port Window on the 78 Series Models that have these.

³Models without strap mirror, 70 Series Troop Carrier and Wagon, require additional drilling into the vehicle's door for fitment of Clearview mirrors. Should this procedure be unacceptable Clearview mirrors should not be optioned.

⁴2016 On LandCruisers will accept the towing mirror base however fitment may necessitate additional drilling.

⁵On indicator option, hard wiring of indicators by a registered electrician will be required.

CLEARVIEW TOWING MIRRORS

²Clearview towing mirrors might negate the use of Quarter Port Window on the 78 Series Models that have these.

³Models without strap mirror, 70 Series Troop Carrier and Wagon, require additional drilling into the vehicle's door for fitment of Clearview mirrors.

Should this procedure be unacceptable Clearview mirrors should not be optioned.

⁴On indicator option, hard wiring of indicators by a registered electrician will be required.

ARB DELUXE & SUMMIT BULL BARS

DELUXE WINCH BARS - (cont.)

⁷**Important Note:** Due to the unique inboard positioning of the low beam headlamps on this vehicle, on VX, ZR and Kakadu Models with HID (Xenon) headlamps some minor shadowing can be expected from the bull bar and other accessories. This does not affect the headlight performance or compliance with ADRs. ARB recommends fitting the Sahara style bar to VX, ZR and Kakadu Models. ZR and Kakadu Models can also have an optional centre grille located camera. Vision from this camera will unavoidably be obstructed in some cases where bars and accessories are installed. The radar anti collision system option in Kakadu and ZR is also located in the grille badge. Structures forward of this device may affect the operation of this device.

⁸Suits Warn M8000/XD9000/XP9.5/XDC9.5, Zeon⁵ 8/8-S/10/10-S/Platinum 10/10-S, Magnum 8000lb/10000lb, Bushranger DV-9TH/DS-9.5TH & SEAL9.5TH low mount winches⁴.
